Prologue

This trick manual was produced by Mr. Joe Stark in 1990 primarily for use in South Africa. With his permission, the IWSF Tournament Council has made minor amendments so that it has general application.

The manual is not intended to teach skiers how to perform tricks, nor does anything in it take precedence over the published rules.

It is intended to give guidance on the interpretation of the rules.

The Tournament Council thanks Mr. Stark for his very thorough work and hopes it will help all judges when making judgement decisions.

Important Note:

These descriptions are current and meet with the **IWSF 2015 Rules** Please check carefully with future rules editions to verify that the descriptions herein are still appropriate.

IWSF Training Manual for Trick Calling

A Tricks panel consists of five appointed Judges. The particular qualifications of the Judges depends on the Homologation specification for the Tournament.

Other officials include:-

A 20-second timer and a backup 20-second timer, whose function is explained in [rule 15.12](#);

A boat judge whose function is explained in [rule 15.11](#);

[A Calculator](#) whose function is to produce a scored "master sheet" after checking the judges sheets.

Your duty as a Trick Panel Judge is to fairly view all the tricks of the competitors and to decide on each trick as to whether the trick is correctly performed or not. Every trick is clearly defined in this manual and must be correct in all detail.

A trick is either absolutely correct or it is to be disallowed.

We do not credit "almost" tricks!!

As the skier approaches the course, you must note that the boat-path is correct and the same for all skiers. [Refer rule 15.08 and 15.04.](#)

Watch-out for skiers who may "practise" prior to entering the course. [Refer also rule 15.02.](#)

If a skier does a positional trick prior to entering the course, this trick must be written down on your judging sheet and notated as a positional trick.

When the skier begins his trick run, you need to decide whether the skier was in the trick course or not - read [rule 15.05 and 15.06](#) very carefully.

Write down each trick as you see it. Do not attempt to second-guess the skier.

If the skier falls, you must decide whether the fall was the result of the trick preceding the fall, or whether the fall was as a result of a current trick attempt.

Should the skier still be performing when you hear the [20- second horn](#), do not stop judging, Write all tricks after the horn as not all Judges will agree as to what the last trick completed was. Also, the skier might fall immediately after the horn and you need to decide whether the fall was as a result of the trick or not or a deliberate fall as detailed in [Rule 15.02](#).

While the skier is performing, you must also be aware of any conditions which could occur that could affect the skier's run and you must be able to decide on whether any "unfair" conditions existed or not.

Also be aware of the fact that skiers can request a reride for all sorts of reasons, valid or imagined, so total awareness of what is happening is of great importance.

Finally, it is YOUR reading of the tricks that counts. Do not be influenced or intimidated by others on the panel.

Be prepared always to listen and to learn from more experienced Judges. Read the descriptions of the tricks in this manual.

Be ready to not only judge the performance of the skiers,

- but to judge the performance of yourself.

General Notes

- * Skiing position is always as defined in the rule book.
- * All tricks are started and ended with the ski either forwards or backwards.
- * All tricks are started and ended with a hesitation (**see rule 15.19 a**)
- * A trick not ended with a hesitation must be disallowed and must automatically disqualify the following trick.
- * Except in the case of the hesitation in the 90 degree position in side-slides, change of direction of the ski from clockwise to anti-clockwise or vice-versa will be accepted as sufficient hesitation.
- * Reverse tricks are always performed as per the basic turn.
- * The trick is always disallowed if the skier falls as a result of the trick - even after the 20 second **horn**.
- * A toehold trick must be disallowed if, once the skier has entered the course, the foot in the toe strap intentionally touches the ski during setup or execution of the trick.
- * Some tricks can only be done on one ski. Where a trick can be performed on two skis, the principle and definition are the same as for one-ski tricks.
- * A wake turn is a trick performed while the ski is in mid-air while crossing the crest of the wake.
- * A wake turn not done in mid-air while crossing the crest of the wake scores zero, it is not scored as a water turn.
- * "Forwards skiing position" denotes that the ski is travelling in a direction such that the front edge of the ski is leading the direction of travel.
- * "Backwards skiing position" denotes that the ski is travelling in a direction such that the back edge of the ski is leading the direction of travel.
- * "Stationary" means that there is no angular rotation of the ski.

Surface Turns

No. 1 Side Slide

Name: Side Slide

Code: S

Medium: Surface

Description:

From the skiing position, the ski is turned 90 degrees. The ski is then turned 90 degrees back to the original direction and stopped in this position.

Disallowances:

Ski not forwards or backwards at the start of the trick.

* Ski not stationary at start of trick.

* Ski not turned 90 degrees.

* Ski not returned to the start direction.

* Ski not return to 90 degrees.

* No hesitation at the end of the trick.

No. 2 Toehold Side Slide

Name: Toehold Side Slide

Code: TS

Medium: Surface

Description:

Tow rope attached to skier's foot.

From the skiing position, the ski is turned 90 degrees. The ski is then turned 90 degrees back to the original direction and stopped in this position.

Disallowances:

* Ski not forward or backwards at start of trick.

* Ski not stationary at start of trick.

* Ski not turned 90 degrees.

* Ski not returned into start direction.

* Ski not returned 90 degrees.

* No hesitation at end of trick.

No. 3 180 F-B

Name: 180 F-B

Code: B

Medium: Surface

Description:

From the forwards skiing position the ski is turned 180 degrees (half a turn) into the backwards skiing position and stopped in this position.

Disallowances:

- * Ski not forwards at the start of the trick.
- * Ski not turned 180 degrees.
- * Ski not stationary at start of the trick.
- * Ski not backwards and parallel to the boat path at the end of the trick.
- * No hesitation at the end of the trick.

No. 4 180 B-F

Name: 180 B-F

Code: F

Medium: Surface

Description:

From the backwards skiing position the ski is turned 180 degrees (half a turn) into the forwards skiing position and stopped in this position.

Disallowances:

- * Ski not backwards at the start of the trick.
- * Ski not turned 180 degrees.
- * Ski not stationary at start of the trick.
- * Ski not forwards at the end of the trick.
- * No hesitation at the end of the trick.

No. 5a 360 F-F

Name: 360 F-F

Code: O

Medium: Surface

Description:

From the forwards skiing position, the ski is turned 360 degrees (one full turn), without any hesitations, to the original forwards skiing position and stopped in this position.

Disallowances:

- * Ski is not forwards at the start of the trick.
- * Ski not turned 360 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not forwards at the end of the trick.
- * No hesitation at the end of the trick.

No. 5b 360 B-B

Name: 360 B-B

Code: BB

Medium: Surface

Description:

From the backwards skiing position, the ski is turned 360 degrees (one full turn), without any hesitations, to the original backwards skiing position and stopped in this position.

Disallowances:

- * Ski is not backwards at the start of the trick.
- * Ski not turned 360 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not backwards at the end of the trick.
- * No hesitation at the end of the trick.

No. 5c 540 F-B

Name: 540 F-B

Code: 5B

Medium: Surface

Description:

From the forwards skiing position, the ski is turned 540 degrees (one and a half turns), without any hesitations, into the backwards skiing position and stopped in this position.

Disallowances:

- * Ski is not forwards at the start of the trick.
- * Ski not turned 540 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not backwards at the end of the trick.
- * No hesitation at the end of the trick.

No. 5d 540 B-F

Name: 540 B-F

Code: 5F

Medium: Surface

Description:

From the backwards skiing position, the ski is turned 540 degrees (one and a half turns), without any hesitations, into the forwards skiing position and stopped in this position.

Disallowances:

- * Ski is not backwards at the start of the trick.
- * Ski not turned 540 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not forwards at the end of the trick.
- * No hesitation at the end of the trick.

No. 5e 720 F-F

Name: 720 F-F

Code: 7F

Medium: Surface

Description:

From the forwards skiing position, the ski is turned 720 degrees (two full turns), without any hesitations, to the original forwards skiing position and stopped in this position.

Disallowances:

- * Ski is not forwards at the start of the trick.
- * Ski not turned 720 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not forwards at the end of the trick.
- * No hesitation at the end of the trick.

No. 5f 720 B-B

Name: 720 B-B

Code: 7B

Medium: Surface

Description:

From the backwards skiing position, the ski is turned 720 degrees (two full turns), without any hesitations, to the original backwards skiing position and stopped in this position.

Disallowances:

- * Ski is not backwards at the start of the trick.
- * Ski not turned 720 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not backwards at the end of the trick.
- * No hesitation at the end of the trick.

No. 6 180 F-B Steptover

Name: 180 F-B Steptover

Code: LB

Medium: Surface

Description:

From the forwards skiing position the ski is turned 180 degrees (half a turn) into the backwards skiing position and stopped in this position.

Simultaneous with the turn, the free foot (or lifted ski) is passed over the rope.

The trick is completed when the free foot touches the ski or the surface of the water, or when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not forwards at the start of the trick.
- * Ski not turned 180 degrees.
- * Ski not stationary at start of the trick.
- * Ski not backwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Free foot (or lifted ski) is on or across the rope, handle, or either arm before the start of the trick.
- * Steptover is not simultaneous with the 180 degree turn.
- * Free foot (or lifted ski) does not touch the surface of the water/ski at the end of the trick.
- * Skier does not have at least one arm between his legs and holding the handle, at the end of the trick.
- * Free foot (or lifted ski) does not pass over the rope.

No. 7 180 B-F Steptover

Name: 180 B-F Steptover

Code: LF

Medium: Surface

Description:

From the backwards skiing position the ski is turned 180 degrees (half a turn) into the forwards skiing position and stopped in this position.

Simultaneous with the turn, the free foot (or lifted ski) is passed over the rope.

The trick is completed when the free foot touches the ski or the surface of the water, or when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not backwards at the start of the trick.
- * Ski not turned 180 degrees.

- * Ski not stationary at start of the trick.
- * Ski not forwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Free foot (or lifted ski) is on or across the rope, handle, or either arm before the start of the trick.
- * Steptover is not simultaneous with the 180 degree turn.
- * Free foot (or lifted ski) does not touch the surface of the water/ski at the end of the trick.
- * Free foot (or lifted ski) does not pass over the rope.

No. 8 180 F-B Toehold

Name: 180 F-B Toehold

Code: TB

Medium: Surface

Description:

Tow rope attached to the skiers' foot.

From the forwards skiing position the ski is turned 180 degrees (half a turn) into the backwards skiing position and stopped in this position.

Disallowances:

- * Ski not forwards at the start of the trick.
- * Ski not turned 180 degrees.
- * Ski not stationary at start of the trick.
- * Ski not backwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Foot in strap intentionally touches the ski during the setup for, or execution of the trick.

No. 9 180 B-F Toehold

Name: 180 B-F Toehold

Code: TF

Medium: Surface

Description:

Tow rope attached to the skiers' foot.

From the backwards skiing position the ski is turned 180 degrees (half a turn) into the forwards skiing position and stopped in this position.

Disallowances:

- * Ski not backwards at the start of the trick.
- * Ski not turned 180 degrees.

- * Ski not stationary at start of the trick.
- * Ski not forwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Foot in strap intentionally touches the ski during the setup for, or execution of the trick.

No. 10 360 F-F Toehold

Name: 360 F-F Toehold

Code: TO

Medium: Surface

Description:

Tow rope attached to the skiers' foot.

From the forwards skiing position, the ski is turned 360 degrees (one full turn), without any hesitations, to the original forwards skiing position and stopped in this position.

Disallowances:

- * Ski is not forwards at the start of the trick.
- * Ski not turned 360 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not forwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Foot in strap intentionally touches the ski during the setup for, or the execution of the trick.

No. 11 360 B-B Toehold

Name: 360 B-B Toehold

Code: TBB

Medium: Surface

Description:

Tow rope attached to the skiers' foot.

From the backwards skiing position, the ski is turned 360 degrees (one full turn), without any hesitations, to the original backwards skiing position and stopped in this position.

Disallowances:

- * Ski is not backwards at the start of the trick.
- * Ski not turned 360 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.

- * Ski is not backwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Foot in strap intentionally touches the ski during the setup for, or the execution of the trick.

No. 12 540 F-B Toehold

Name: 540 F-B Toehold

Code: T5B

Medium: Surface

Description:

Tow rope attached to the skiers' foot.

From the forwards skiing position, the ski is turned 540 degrees (one and a half turns), without any hesitations, to the backwards skiing position and stopped in this position.

Disallowances:

- * Ski is not forwards at the start of the trick.
- * Ski not turned 540 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not backwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Foot in strap intentionally touches the ski during the setup for, or the

No 12 720 F-F Toehold

Name: 720 F-F Toehold

Code: T7F

Medium: Surface

Description:

Tow rope attached to the skiers' foot.

From the forwards skiing position, the ski is turned 720 degrees (two full turns), without any hesitations, to the forwards skiing position and stopped in this position.

Disallowances:

- * Ski is not forwards at the start of the trick.
- * Ski not turned 720 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.

- * Ski is not forwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Foot in strap intentionally touches the ski during the setup for, or the execution of the trick.

No. 13 540 B-F Toehold

Name: 540 B-F Toehold

Code: T5F

Medium: Surface

Description:

Tow rope attached to the skiers' foot.

From the backwards skiing position, the ski is turned 540 degrees (one and a half turns), without any hesitations, to the forwards skiing position and stopped in this position.

Disallowances:

- * Ski is not backwards at the start of the trick.
- * Ski not turned 540 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not forwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Foot in strap intentionally touches the ski during the setup for, or the execution of the trick.

Wake Turns

No. 14 Wake 180 F-B

Name: Wake 180 F-B

Code: WB

Medium: Wake

Description:

From the forwards skiing position a wake turn is performed, turning the ski 180 degrees (half a turn) into the backwards skiing position and stopping in this position.

Disallowances:

- * Ski not forwards at the start of the trick.
- * Ski not turned 180 degrees.
- * Ski not stationary at start of the trick.

- * Ski not backwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Wake turn not done across the crest of the wake.
- * Wake turns are not done entirely in mid-air.

No.15 Wake 180 B-F

Name: Wake 180 B-F

Code: WF

Medium: Wake

Description:

From the backwards skiing position a wake turn is performed, turning the ski 180 degrees (half a turn) into the forwards skiing position and stopping in this position.

Disallowances:

- * Ski not backwards at the start of the trick.
- * Ski not turned 180 degrees.
- * Ski not stationary at start of the trick.
- * Ski not forwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.

No. 16 Wake 360 F-F

Name: Wake 360 F-F

Code: WO

Medium: Wake

Description:

From the forwards skiing position, a wake turn is performed, turning the ski 360 degrees (one full turn), without any hesitations, to the original forwards skiing position and stopping in this position.

Disallowances:

- * Ski is not forwards at the start of the trick.
- * Ski not turned 360 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not forwards at the end of the trick.
- * No hesitation at the end of the trick.

- * Wake turn is not done across the crest of the wake.
- * Wake turn is not done entirely in mid-air.

No. 17 Wake 360 B-B

Name: Wake 360 B-B

Code: WBB

Medium: Wake

Description:

From the backwards skiing position, a wake turn is performed, turning the ski 360 degrees (one full turn), without any hesitations, to the original backwards skiing position and stopping in this position.

Disallowances:

- * Ski is not backwards at the start of the trick.
- * Ski not turned 360 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not backwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Wake turn is not done across the crest of the wake.
- * Wake turn is not done entirely in mid-air.

No. 18 Wake 540 F-B

Name: Wake 540 F-B

Code: W5B

Medium: Wake

Description:

From the forwards skiing position, a wake turn is performed, turning the ski 540 degrees (one and a half turns), without any hesitations, into the backwards skiing position and stopped in this position.

Disallowances:

- * Ski is not forwards at the start of the trick.
- * Ski not turned 540 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not backwards at the end of the trick.

- * No hesitation at the end of the trick.
- * Wake turn is not done across the crest of the wake.
- * Wake turn is not done entirely in mid-air.

No. 19 Wake 540 B-F

Name: Wake 540 B-F

Code: W5F

Medium: Wake

Description:

From the backwards skiing position, a wake turn is performed, turning the ski 540 degrees (one and a half turns), without any hesitations, into the forwards skiing position and stopped in this position.

Disallowances:

- * Ski is not backwards at the start of the trick.
- * Ski not turned 540 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not forwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Wake turn is not done across the crest of the wake.
- * Wake turn is not done entirely in mid-air.

No. 20 Wake 720 F-F

Name: Wake 720 F-F

Code: W7F

Medium: Wake

Description:

From the forwards skiing position, a wake turn is performed, turning the ski 720 degrees (two full turns), without any hesitations, to the original forwards skiing position and stopped in this position.

Disallowances:

- * Ski is not forwards at the start of the trick.
- * Ski not turned 720 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not forwards at the end of the trick.

- * No hesitation at the end of the trick.
- * Wake turn is not done across the crest of the wake.
- * Wake turn is not done entirely in mid-air.

No. 21 Wake 720 B-B

Name: Wake 720 B-B

Code: W7B

Medium: Wake

Description:

From the backwards skiing position, a wake turn is performed turning the ski 720 degrees (two full turns), without any hesitations, to the original backwards skiing position and stopped in this position.

Disallowances:

- * Ski is not backwards at the start of the trick.
- * Ski not turned 720 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not backwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.

No 22 Wake 900 B-F

Name: Wake 900 B-F

Code: W9F

Medium: Wake

Description:

From the backwards skiing position, a wake turn is performed, turning the ski 900 degrees (two and a half turns), without any hesitations, into the forwards skiing position and stopped in this position.

Disallowances:

- * Ski is not backwards at the start of the trick.
- * Ski not turned 900 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not forwards at the end of the trick.

- * No hesitation at the end of the trick.
- * Wake turn is not done across the crest of the wake.
- * Wake turn is not done entirely in mid-air.

No. 22 Wake 900 F-B

Name: Wake 900 F-B

Code: W9B

Medium: Wake

Description:

From the forwards skiing position, a wake turn is performed, turning the ski 900 degrees (two and a half turns), without any hesitations, into the backwards skiing position and stopped in this position.

Disallowances:

- * Ski is not forwards at the start of the trick.
- * Ski not turned 900 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not backwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Wake turn is not done across the crest of the wake.
- * Wake turn is not done entirely in mid-air.

No. 23 Wake 180 F-B Stepmover

Name: Wake 180 F-B Stepmover

Code: WLB

Medium: Wake

Description:

From the forwards skiing position, a wake turn is performed, turning the ski 180 degrees (half a turn) into the backwards skiing position and stopped in this position.

Simultaneous with the turn, the free foot (or lifted ski) is passed over the rope.

The trick is completed when the free foot touches the ski or the surface of the water, or when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not forwards at the start of the trick.

- * Ski not turned 180 degrees.
- * Ski not stationary at start of the trick.
- * Ski not backwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Free foot (or lifted ski) is on or across the rope, handle, or either arm before the start of the trick.
- * Stepover is not simultaneous with the 180 degree turn.
- * Free foot (or lifted ski) do not touch the surface of the water/ski at the end of the trick.
- * Skier does not have at least one arm between his legs and holding the handle, at the end of the trick.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.
- * Free foot (or lifted ski) does not pass over the rope.

No. 24 Wake 180 B-F Stepover

Name: Wake 180 B-F Stepover

Code: WLF

Medium: Wake

Description:

From the backwards skiing position, a wake turn is performed, turning the ski 180 degrees (half a turn) into the forwards skiing position and stopped in this position.

Simultaneous with the turn, the free foot (or lifted ski) is passed over the rope.

The trick is completed when the free foot touches the ski or the surface of the water, or when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not backwards at the start of the trick.
- * Ski not turned 180 degrees.
- * Ski not stationary at start of the trick.
- * Ski not forwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Free foot (or lifted ski) is on or across the rope, handle, or either arm before the start of the trick.
- * Stepover is not simultaneous with the 180 degree turn.
- * Free foot (or lifted ski) do not touch the surface of the water/ski at the end of the trick.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.
- * Free foot (or lifted ski) does not pass over the rope.

No. 25 Wake 360 F-F Stepmover

Name: Wake 360 F-F Stepmover

Code: WLO

Medium: Wake

Description:

From the forwards skiing position, a wake turn is performed, turning the ski 360 degrees (one full turn), without any hesitations, into the original forwards skiing position and stopped in this position. Simultaneous with the turn, the free foot (or lifted ski) is passed over the rope once. The trick is completed when the free foot touches the ski or the surface of the water, or when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not forwards at the start of the trick.
- * Ski not turned 360 degrees.
- * Ski not stationary at start of the trick.
- * Ski not forwards at the end of the trick.
- * Turn is not one continuous movement without any hesitations.
- * No hesitation at the end of the trick.
- * Free foot (or lifted ski) is on or across the rope, handle, or either arm before the start of the trick.
- * Stepmover is not simultaneous with the 360 degree turn.
- * Free foot (or lifted ski) do not touch the surface of the water/ski at the end of the trick.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.
- * Free foot (or lifted ski) pass over the rope more than once.
- * Free foot (or lifted ski) do not pass over the rope.
- * While the skier is in the back position in mid-air, the skier does not have at least one hand between his legs, holding onto the tow-handle.

No. 26 Wake 360 B-B Stepmover

Name: Wake 360 B-B Stepmover

Code: WLBB

Medium: Wake

Description:

From the backwards skiing position, a wake turn is performed, turning the ski 360 degrees (one full turn), without any hesitations, into the original backwards skiing position and stopped in this position. Simultaneous with the turn, the free foot (or lifted ski) is passed over the rope once.

The trick is completed when the free foot touches the ski or the surface of the water, or when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not backwards at the start of the trick.
- * Ski not turned 360 degrees.
- * Ski not stationary at start of the trick.
- * Ski not backwards at the end of the trick.
- * Turn is not one continuous movement without any hesitations.
- * No hesitation at the end of the trick.
- * Free foot (or lifted ski) is on or across the rope, handle, or either arm before the start of the trick.
- * Stepover is not simultaneous with the 360 degree turn.
- * Free foot (or lifted ski) do not touch the surface of the water/ski at the end of the trick.
- * Skier does not have at least one arm between his legs and holding the handle, either at the start or at the end of the trick.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.
- * Free foot (or lifted ski) pass over the rope more than once.
- * Free foot (or lifted ski) do not pass over the rope.

No. 27 Wake 540 F-B Stepover

Name: Wake 540 F-B Stepover

Code: WL5B

Medium: Wake

Description:

From the forwards skiing position, a wake turn is performed, turning the ski 540 degrees (one and a half turns) without any hesitation, into the backwards skiing position and stopped in this position. Simultaneous with the turn, the free foot (or lifted ski) is passed over the rope once. The trick is completed when the free foot touches the ski or the surface of the water, or when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not forwards at the start of the trick.
- * Ski not turned 540 degrees.
- * Ski not stationary at start of the trick.
- * Ski not backwards at the end of the trick.
- * Turn is not one continuous movement without any hesitations.
- * No hesitation at the end of the trick.

- * Free foot (or lifted ski) is on or across the rope, handle, or either arm before the start of the trick.
- * Steptover is not simultaneous with the 540 degree turn.
- * Free foot (or lifted ski) do not touch the surface of the water/ski at the end of the trick.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.
- * Free foot (or lifted ski) pass over the rope more than once.
- * Free foot (or lifted ski) does not pass over the rope.
- * While the skier is in the back position, either at the end of the trick or while the skier is in mid-air, the skier does not have at least one arm between his legs holding onto the tow-handle.

Wake 540 F-B Double Steptover

Name: Wake 540 F-B Double Steptover

Code: WL5LB

Medium: Wake

Description:

From the forwards skiing position, a wake turn is performed, turning the ski 540 degrees (one and a half turns) without any hesitations, into the backwards skiing position and stopped in this position. Simultaneous with the turn, the free foot is passed over the rope twice.

The trick is completed when the free foot touches the ski or the surface of the water. This trick consists of a 180 wake stepover and a 360 wake stepover combined, in either order, all done in the air off the wake in a continuous turn.

Disallowances:

- * Ski not forwards at the start of the trick.
- * Ski not turned 540 degrees.
- * Ski not stationary at start of the trick.
- * Ski not backwards at the end of the trick.
- * Turn is not one continuous movement without any hesitations.
- * No hesitation at the end of the trick.
- * Free foot is on or across the rope, handle, or either arm before the start of the trick.
- * Steptover is not simultaneous with the 540 degree turn.
- * Free foot does not touch the surface of the water or ski at the end of the trick.
- * Free foot does not pass over the rope twice.
- * Free foot passes over the rope more than twice.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.
- * While the skier is in the back position, either at the end of the trick or while the skier is in mid-air, the skier does not have at least one arm between his legs holding onto the tow-handle.

No. 27a Wake 720 F-F Steptover

Name: Wake 720 F-F Steptover

Code: WL7F

Medium: Wake

Description:

From the forwards skiing position, a wake turn is performed, turning the ski 720 degrees (two full turns), without any hesitations, into the original forwards skiing position and stopped in this position. Simultaneous with the turn, the free foot (or lifted ski) is passed over the rope once. The trick is completed when the free foot touches the ski or the surface of the water, or when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not forwards at the start of the trick.
- * Ski not turned 720 degrees.
- * Ski not stationary at start of the trick.
- * Ski not forwards at the end of the trick.
- * Turn is not one continuous movement without any hesitations.
- * No hesitation at the end of the trick.
- * Free foot (or lifted ski) is on or across the rope, handle, or either arm before the start of the trick.
- * Steptover is not simultaneous with the 720 degree turn.
- * Free foot (or lifted ski) do not touch the surface of the water/ski at the end of the trick.
- * Free foot (or lifted ski) does not pass over the rope.
- * Free foot (or lifted ski) pass over the rope more than once.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.

No. 27b Wake 900 F-B Steptover

Name: Wake 900 F-B Steptover

Code: WL9B

Medium: Wake

Description:

From the forwards skiing position, a wake turn is performed, turning the ski 900 degrees (two and a half turns) without any hesitations, into the backwards skiing position and stopped in this position. Simultaneous with the turn, the free foot (or lifted ski) is passed over the rope once. The trick is completed when the free foot touches the ski or the surface of the water, or when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not forwards at the start of the trick.
- * Ski not turned 900 degrees.
- * Ski not stationary at start of the trick.
- * Ski not backwards at the end of the trick.
- * Turn is not one continuous movement without any hesitations.
- * No hesitation at the end of the trick.
- * Free foot (or lifted ski) is on or across the rope, handle, or either arm before the start of the trick.
- * Stepover is not simultaneous with the 900 degree turn.
- * Free foot (or lifted ski) do not touch the surface of the water/ski at the end of the trick.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.
- * Free foot (or lifted ski) pass over the rope more than once.
- * Free foot (or lifted ski) do not pass over the rope.

No. 28 Wake 540 B-F Stepover

Name: Wake 540 B-F Stepover

Code: WL5F

Medium: Wake

Description:

From the backwards skiing position, a wake turn is performed, turning the ski 540 degrees (one and a half turns) without any hesitations, into the forwards skiing position and stopped in this position. Simultaneous with the turn, the free foot (or lifted ski) is passed over the rope once. The trick is completed when the free foot touches the ski or the surface of the water, or when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not backwards at the start of the trick.
- * Ski not turned 540 degrees.
- * Ski not stationary at start of the trick.
- * Ski not forwards at the end of the trick.
- * Turn is not one continuous movement without any hesitations.
- * No hesitation at the end of the trick.
- * Free foot (or lifted ski) is on or across the rope, handle, or either arm before the start of the trick.
- * Stepover is not simultaneous with the 540 degree turn.

- * Free foot (or lifted ski) do not touch the surface of the water/ski at the end of the trick.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.
- * Free foot (or lifted ski) pass over the rope more than once.
- * Free foot (or lifted ski) does not pass over the rope.
- * While the skier is in the back position, either at the start of the trick or while the skier is in mid-air, the skier does not have at least one arm between his legs holding onto the tow-handle.

Wake 540 B-F Double Stepmover

Name: Wake 540 B-F Double Stepmover

Code: WL5LF

Medium: Wake

Description:

From the backwards skiing position, a wake turn is performed, turning the ski 540 degrees (one and a half turns) without any hesitations, into the forwards skiing position and stopped in this position. Simultaneous with the turn, the free foot is passed over the rope twice.

The trick is completed when the free foot touches the ski or the surface of the water.

This trick consists of a 180 wake stepmover and a 360 wake stepmover combined, in either order, all done in the air off the wake in a continuous turn.

Disallowances:

- * Ski not backwards at the start of the trick.
- * Ski not turned 540 degrees.
- * Ski not stationary at start of the trick.
- * Ski not forwards at the end of the trick.
- * Turn not one continuous movement without any hesitations.
- * No hesitation at the end of the trick.
- * Free foot is on or across the rope, handle, or either arm before the start of the trick.
- * Stepmover is not simultaneous with the 540 degree turn.
- * Free foot does not touch the surface of the water or the ski at the end of the trick.
- * Free foot does not pass over the rope twice.
- * Free foot passes over the rope more than twice.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.
- * While the skier is in the back position, either at the start of the trick or while the skier is in mid-air, the skier does not have at least one arm between his legs holding onto the tow-handle.

Wake 720 B-B Stepmover

Name: Wake 720 B-B Stepmover

Code: WL7B

Medium: Wake

Description:

From the backwards skiing position, a wake turn is performed, turning the ski 720 degrees (two full turns), without any hesitations, into the original backwards skiing position and stopped in this position. Simultaneous with the turn, the free foot (or lifted ski) is passed over the rope once. The trick is completed when the free foot touches the ski or the surface of the water, or when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not backwards at the start of the trick.
- * Ski not turned 720 degrees.
- * Ski not stationary at start of the trick.
- * Ski not backwards at the end of the trick.
- * Turn is not one continuous movement without any hesitations.
- * No hesitation at the end of the trick.
- * Free foot (or lifted ski) is on or across the rope, handle, or either arm before the start of the trick.
- * Stepover is not simultaneous with the 720 degree turn.
- * Free foot (or lifted ski) do not touch the surface of the water/ski at the end of the trick.
- * Free foot (or lifted ski) does not pass over the rope.
- * Free foot (or lifted ski) pass over the rope more than once.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.

No. 28a Wake 900 B-F Stepover

Name: Wake 900 B-F Stepover

Code: WL9F

Medium: Wake

Description:

From the backwards skiing position, a wake turn is performed, turning the ski 900 degrees (two and a half turns) without any hesitations, into the forwards skiing position and stopped in this position. Simultaneous with the turn, the free foot (or lifted ski) is passed over the rope once. The trick is completed when the free foot touches the ski or the surface of the water, or when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not backwards at the start of the trick.
- * Ski not turned 900 degrees.

- * Ski not stationary at start of the trick.
- * Ski not forwards at the end of the trick.
- * Turn not one continuous movement without any hesitations.
- * No hesitation at the end of the trick.
- * Free foot (or lifted ski) is on or across the rope, handle, or either arm before the start of the trick.
- * Steptover is not simultaneous with the 540 degree turn.
- * Free foot (or lifted ski) do not touch the surface of the water/ski at the end of the trick.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.
- * Free foot (or lifted ski) passes over the rope more than once.
- * Free foot (or lifted ski) do not pass over the rope.

No. 29 Wake 180 F-B Toehold

Name: Wake 180 F-B Toehold

Code: TWB

Medium: Wake

Description:

Tow rope attached to the skiers' foot.

From the forwards skiing position, a wake turn is performed, turning the ski 180 degrees (half a turn) into the backwards skiing position and stopped in this position.

Disallowances:

- * Ski not forwards at the start of the trick.
- * Ski not turned 180 degrees.
- * Ski not stationary at start of the trick.
- * Ski not backwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Foot in strap intentionally touches the ski during the setup for, or execution of the trick.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.

No. 30 Wake 180 B-F Toehold

Name: Wake 180 B-F Toehold

Code: TWF

Medium: Wake

Description:

Tow rope attached to the skiers' foot.

From the backwards skiing position, a wake turn is performed, turning the ski 180 degrees (half a turn) into the forwards skiing position and stopped in this position.

Disallowances:

- * Ski not backwards at the start of the trick.
- * Ski not turned 180 degrees.
- * Ski not stationary at start of the trick.
- * Ski not forwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Foot in strap intentionally touches the ski during the setup for, or execution of the trick.
- * Wake turn is not done across the crest of the wake.
- * Wake turn is not done entirely in mid-air.

No. 31 Wake 360 F-F Toehold

Name: Wake 360 F-F Toehold

Code: TWO

Medium: Wake

Description:

Tow rope attached to the skiers' foot.

From the forwards skiing position, a wake turn is performed, turning the ski 360 degrees (one full turn), without any hesitations, to the original forwards skiing position and stopped in this position.

Disallowances:

- * Ski is not forwards at the start of the trick.
- * Ski not turned 360 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not forwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Foot in strap intentionally touches the ski during the setup for, or the execution of the trick.
- * Wake turn is not done across the crest of the wake.
- * Wake turn is not done entirely in mid-air.

No. 32 Wake 360 B-B Toehold

Name: Wake 360 B-B Toehold

Code: TWBB

Medium: Wake

Description:

Tow rope attached to the skiers' foot.

From the backwards skiing position, a wake turn is performed, turning the ski 360 degrees (one full turn), without any hesitations, to the original backwards skiing position and stopped in this position.

Disallowances:

- * Ski is not backwards at the start of the trick.
- * Ski not turned 360 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not backwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Foot in strap intentionally touches the ski during the setup for, or the execution of the trick.
- * Wake turn is not done across the crest of the wake.
- * Wake turn is not done entirely in mid-air.

No. 33 Wake 540 F-B Toehold

Name: Wake 540 F-B Toehold

Code: TW5B

Medium: Wake

Description:

Tow rope attached to the skiers' foot.

From the forwards skiing position, a wake turn is performed, turning the ski 540 degrees (one and a half turns), without any hesitations, to the backwards skiing position and stopped in this position.

Disallowances:

- * Ski is not forwards at the start of the trick.
- * Ski not turned 540 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not backwards at the end of the trick.
- * No hesitation at the end of the trick.

- * Foot in strap intentionally touches the ski during the setup for, or the execution of the trick.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.

Tow rope attached to the skiers' foot.

From the backwards skiing position, a wake turn is performed, turning the ski 540 degrees (one and a half turns), without any hesitations, to the forwards skiing position and stopped in this position.

Disallowances:

- * Ski is not backwards at the start of the trick.
- * Ski not turned 540 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not forwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Foot in strap intentionally touches the ski during the setup for, or the
- * Wake turn is not done across the crest of the wake.
- * Wake turn is not done entirely in mid-air.

No. 35 Wake 720 F-F Toehold

Name: Wake 720 F-F Toehold

Code: TW7F

Medium: Wake

Description:

Tow rope attached to the skiers' foot.

From the forwards skiing position, a wake turn is performed, turning the ski 720 degrees (two full turns), without any hesitations, to the forwards skiing position and stopped in this position.

Disallowances:

- * Ski is not forwards at the start of the trick.
- * Ski not turned 720 degrees.

- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not forwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Foot in strap intentionally touches the ski during the setup for, or the execution of the trick.
- * Wake turn is not done across the crest of the wake.
- * Wake turn is not done entirely in mid-air.

No. 36 Wake 720 B-B Toehold

Name: Wake 720 B-B Toehold

Code: TW7B

Medium: Wake

Description:

Tow rope attached to the skiers' foot.

From the backwards skiing position, a wake turn is performed, turning the ski 720 degrees (two full turns), without any hesitations, to the backwards skiing position and stopped in this position.

Disallowances:

- * Ski is not backwards at the start of the trick.
- * Ski not turned 720 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski is not stationary at the start of the trick.
- * Ski is not backwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Foot in strap intentionally touches the ski during the setup for, or the execution of the trick.
- * Wake turn is not done across the crest of the wake.
- * Wake turn is not done entirely in mid-air.

No. 37 180 F-B Toehold Stepper

Name: 180 F-B Toehold Stepper

Code: TWLB

Medium: Wake

Description:

Tow rope attached to the skiers' foot.

From the forwards skiing position, a wake turn is performed, turning the ski 180 degrees (half a turn) into the backwards skiing position and stopped in this position.

Simultaneous with the turn, the ski is passed over the rope
The towing foot may not touch the water during execution of the trick.
The trick is completed when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not forwards at the start of the trick.
- * Ski not turned 180 degrees.
- * Ski not stationary at start of the trick.
- * Ski not backwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Foot in strap intentionally touches the ski during the setup for, or execution of the trick.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.
- * Ski passes over rope more than once.
- * Ski does not pass over rope.
- * Towing foot touches the water during execution of the trick.

No. 38 180 B-F Toehold Stepover

Name: 180 B-F Toehold Stepover

Code: TWLF

Medium: Wake

Description:

Tow rope attached to the skiers' foot.

From the backwards skiing position, a wake turn is performed, turning the ski 180 degrees (half a turn) into the forwards skiing position and stopped in this position.

Simultaneous with the turn, the ski is passed over the rope,

The towing foot may not touch the water during execution of the trick.

The trick is completed when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not backwards at the start of the trick.
- * Ski not turned 180 degrees.
- * Ski not stationary at start of the trick.
- * Ski not forwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Foot in strap intentionally touches the ski during the setup for, or execution of the trick.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.
- * Ski passes over rope more than once.
- * Ski does not pass over rope.

* Towing foot touches the water during execution of the trick.

No. 39 360 F-F Toehold Stepover

Name: 360 F-F Toehold Stepover

Code: TWLO

Medium: Wake

Description:

Tow rope attached to the skiers' foot.

From the forwards skiing position, a wake turn is performed, turning the ski 360 degrees (one full turn), without any hesitations, to the original forwards skiing position and stopped in this position. Simultaneous with the turn, the ski is passed over the rope

The towing foot may not touch the water during execution of the trick.

The trick is completed when the lifted ski touches the surface of the water.

Disallowances:

* Ski not forwards at the start of the trick.

* Ski not turned 360 degrees.

* Turn is not one continuous movement without any hesitations.

* Ski not stationary at start of the trick.

* Ski not forwards at the end of the trick.

* No hesitation at the end of the trick.

* Foot in strap intentionally touches the ski during the setup for, or execution of the trick.

* Wake turn not done across the crest of the wake.

* Wake turn not done entirely in mid-air.

* Ski passes over rope more than once.

* Ski does not pass over rope.

* Towing foot touches the water during execution of the trick.

No. 40 360 B-B Toehold Stepover

Name: 360 B-B Toehold Stepover

Code: TWLBB

Medium: Wake

Description:

Tow rope attached to the skiers' foot.

From the backwards skiing position, a wake turn is performed, turning the ski 360 degrees (one full turn), without any hesitations, to the original backwards skiing position and stopped in this position. Simultaneous with the turn, the ski is passed over the rope

The towing foot may not touch the water during execution of the trick.

The trick is completed when the lifted ski touches the surface of the water.

No. 41 540 F-B Toehold Stepover

Name: 540 F-B Toehold Stepover

Code: TWL5B

Medium: Wake

Description:

Tow rope attached to the skiers' foot.

From the forwards skiing position, a wake turn is performed, turning the ski 540 degrees (one and a half turns), without any hesitations, to the backwards skiing position and stopped in this position. Simultaneous with the turn, the ski is passed over the rope

The towing foot may not touch the water during execution of the trick.

The trick is completed when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not forwards at the start of the trick.
- * Ski not turned 540 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski not stationary at start of the trick.
- * Ski not backwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Foot in strap intentionally touches the ski during the setup for, or execution of the trick.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.
- * Ski passes over rope more than once.

- * Ski does not pass over rope.
- * Towing foot touches the water during execution of the trick.

No. 42 540 B-F Toehold Stepover

Name: 540 B-F Toehold Stepover

Code: TWL5F

Medium: Wake

Description:

Tow rope attached to the skiers' foot.

From the backwards skiing position, a wake turn is performed, turning the ski 540 degrees (one and a half turns), without any hesitations, to the forwards skiing position and stopped in this position. Simultaneous with the turn, the ski is passed over the rope.

The towing foot may not touch the water during execution of the trick.

The trick is completed when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not backwards at the start of the trick.
- * Ski not turned 540 degrees.
- * Turn is not one continuous movement without any hesitations.
- * Ski not stationary at start of the trick.
- * Ski not forwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Foot in strap intentionally touches the ski during the setup for, or execution of the trick.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.
- * Ski passes over rope more than once.
- * Ski does not pass over rope.
- * Towing foot touches the water during execution of the trick.

No. 43 180 F-B Ski Line

Name: 180 F-B Ski Line (Bodyover)

Code: SLB

Medium: Wake

Description:

From the forwards skiing position, a wake turn is performed, turning the ski 180 degrees (half a turn) into the backwards skiing position and stopped in this position.

Simultaneous with the turn, the ski, with both feet on it, is passed over the rope, which must remain out of the water during execution of the trick.

The trick is completed when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not forwards at the start of the trick.
- * Ski not turned 180 degrees.
- * Ski not stationary at start of the trick.
- * Ski not backwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Bodyover is not simultaneous with the 180 degree turn.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.
- * Both feet not on the ski during execution of the trick
- * Ski does not pass over the rope.
- * Rope not out of the water during the execution of the trick. (Rope is allowed to inadvertently be in the rooster-tail of the boat).

No. 44 180 B-F Ski Line

Name: 180 B-F Ski Line (Bodyover)

Code: SLF

Medium: Wake

Description:

From the backwards skiing position, a wake turn is performed, turning the ski 180 degrees (half a turn) into the forwards skiing position and stopped in this position.

Simultaneous with the turn, the ski, with both feet on it, is passed over the rope, which must remain out of the water during execution of the trick.

The trick is completed when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not backwards at the start of the trick.
- * Ski not turned 180 degrees.
- * Ski not stationary at start of the trick.
- * Ski not forwards at the end of the trick.
- * No hesitation at the end of the trick.
- * Bodyover is not simultaneous with the 180 degree turn.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.
- * Both feet not on the ski during execution of the trick
- * Ski does not pass over the rope.

* Rope not out of the water during the execution of the trick. (Rope is allowed to inadvertently be in the rooster-tail of the boat).

No. 45 360 F-F Ski Line

Name: 360 F-F Ski Line (Bodyover)

Code: SLO

Medium: Wake

Description:

From the forwards skiing position, a wake turn is performed, turning the ski 360 degrees (one full turn), without any hesitations into the original forwards skiing position and stopped in this position.

Simultaneous with the turn, the ski, with both feet on it, is passed over the rope, which must remain out of the water during execution of the trick.

The trick is completed when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not forwards at the start of the trick.
- * Ski not turned 360 degrees.
- * Ski not stationary at start of the trick.
- * Ski not forwards at the end of the trick.
- * Turn is not one continuous movement without any hesitations.
- * No hesitation at the end of the trick.
- * Bodyover is not simultaneous with the 360 degree turn.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.
- * Both feet not on the ski during execution of the trick
- * Ski does not pass over the rope.
- * Rope not out of the water during the execution of the trick. (Rope is allowed to inadvertently be in the rooster-tail of the boat).

No. 46 360 B-B Ski Line

Name: 360 B-B Ski Line (Bodyover)

Code: SLBB

Medium: Wake

Description:

From the backwards skiing position, a wake turn is performed, turning the ski 360 degrees (one full turn), without any hesitations into the original backwards skiing position and stopped in this position.

Simultaneous with the turn, the ski, with both feet on it, is passed over the rope, which must remain out of the water during execution of the trick.

The trick is completed when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not backwards at the start of the trick.
- * Ski not turned 360 degrees.
- * Ski not stationary at start of the trick.
- * Ski not backwards at the end of the trick.
- * Turn is not one continuous movement without any hesitations.
- * No hesitation at the end of the trick.
- * Bodyover is not simultaneous with the 360 degree turn.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.
- * Both feet not on the ski during execution of the trick
- * Ski does not pass over the rope.
- * Rope not out of the water during the execution of the trick. (Rope is allowed to inadvertently be in the rooster-tail of the boat).

No. 47 540 F-B Ski Line

Name: 540 F-B Ski Line (Bodyover)

Code: SL5B

Medium: Wake

Description:

From the forwards skiing position, a wake turn is performed, turning the ski 540 degrees (one and a half turns) without any hesitations into the backwards skiing position and stopped in this position. Simultaneous with the turn, the ski, with both feet on it, is passed over the rope, which must remain out of the water during execution of the trick.

The trick is completed when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not forwards at the start of the trick.
- * Ski not turned 540 degrees.
- * Ski not stationary at start of the trick.
- * Ski not backwards at the end of the trick.
- * Turn is not one continuous movement without any hesitations.
- * No hesitation at the end of the trick.

- * Bodyover is not simultaneous with the 540 degree turn.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.
- * Both feet not on the ski during execution of the trick
- * Ski does not pass over the rope.
- * Rope not out of the water during the execution of the trick. (Rope is allowed to inadvertently be in the rooster-tail of the boat).

No. 48 540 B-F Ski Line

Name: 540 B-F Ski Line (Bodyover)

Code: SL5F

Medium: Wake

Description:

From the backwards skiing position, a wake turn is performed, turning the ski 540 degrees (one and a half turns) without any hesitations into the forwards skiing position and stopped in this position. Simultaneous with the turn, the ski, with both feet on it, is passed over the rope, which must remain out of the water during execution of the trick.

The trick is completed when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not backwards at the start of the trick.
- * Ski not turned 540 degrees.
- * Ski not stationary at start of the trick.
- * Ski not forwards at the end of the trick.
- * Turn is not one continuous movement without any hesitations.
- * No hesitation at the end of the trick.
- * Bodyover is not simultaneous with the 540 degree turn.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.
- * Both feet not on the ski during execution of the trick
- * Ski does not pass over the rope.
- * Rope not out of the water during the execution of the trick. (Rope is allowed to inadvertently be in the rooster-tail of the boat).

No. 49 720 B-B Ski Line

Name: 720 B-B Ski Line (Bodyover)

Code: SL7B

Medium: Wake

Description:

From the backwards skiing position, a wake turn is performed, turning the ski 720 degrees (two full turns), without any hesitations into the original backwards skiing position and stopped in this position. Simultaneous with the turn, the ski, with both feet on it, is passed once over the rope, which must remain out of the water during execution of the trick.

The trick is completed when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not backwards at the start of the trick.
- * Ski not turned 720 degrees.
- * Ski not stationary at start of the trick.
- * Ski not backwards at the end of the trick.
- * Turn is not one continuous movement without any hesitations.
- * No hesitation at the end of the trick.
- * Bodyover is not simultaneous with the 720 degree turn.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.
- * Both feet not on the ski during execution of the trick
- * Ski does not pass over the rope.
- * Both feet and ski pass over the rope more than once.
- * Rope not out of the water during the execution of the trick. (Rope is allowed to inadvertently be in the rooster-tail of the boat).

No. 50 720 F-F Ski Line

Name: 720 F-F Ski Line (Bodyover)

Code: SL7F

Medium: Wake

Description:

From the forwards skiing position, a wake turn is performed, turning the ski 720 degrees (two full turns), without any hesitations into the original forwards skiing position and stopped in this position. Simultaneous with the turn, the ski, with both feet on it, is passed once over the rope, which must remain out of the water during execution of the trick.

The trick is completed when the lifted ski touches the surface of the water.

Disallowances:

- * Ski not forwards at the start of the trick.
- * Ski not turned 720 degrees.
- * Ski not stationary at start of the trick.
- * Ski not forwards at the end of the trick.
- * Turn is not one continuous movement without any hesitations.
- * No hesitation at the end of the trick.

- * Bodyover is not simultaneous with the 720 degree turn.
- * Wake turn not done across the crest of the wake.
- * Wake turn not done entirely in mid-air.
- * Both feet not on the ski during execution of the trick
- * Ski does not pass over the rope.
- * Both feet and ski pass over the rope more than once.
- * Rope not out of the water during the execution of the trick. (Rope is allowed to inadvertently be in the rooster-tail of the boat).

No. 52 Back Flip Somersault

Name: Backwards Somersault

Code: BFL

Medium: Wake

Description:

From a forward skiing position, a wake turn is performed during which the skier executes a backwards somersault, turning through 360 degrees (one full rotation), with the front edge of the ski leading the direction of rotation. At some point during the execution of the flip, both feet must be higher off the wake than, and in approximately the same vertical plane as, the skiers' head. The trick is completed when the lifted ski touches the water, landing in the original skiing position.

Disallowances:

- * Ski is not forward at the start of the trick.
- * Ski is not facing in the same direction as at the start of the trick, at the end of the trick.
- * Ski is not stationary at the start of the trick.
- * No hesitation at the end of the trick.
- * Somersault not done across the crest of the wake.
- * Skier does not rotate in a backwards direction.
- * Ski does not reach a level higher than the skiers' head.
- * Somersault not done entirely in mid-air.
- * Ski not in approximately the same vertical plane as the skiers' head.

No. 53 Back Flip Half Twist F-B

Name: Back Flip Half Twist

Code: BFLB

Medium: Wake

Description:

From a forward skiing position, a wake turn is performed during which the skier executes a backwards somersault, turning through 360 degrees (one full rotation), with the front edge of the ski leading the direction of rotation. Simultaneously, the skier executes a half twist through 180 degrees. At some point during the execution of the flip, both feet must be higher off the wake than, and in approximately the same vertical plane as, the skiers' head. The trick is completed when the lifted ski touches the water, landing in the backwards skiing position.

Disallowances:

- * Ski is not forward at the start of the trick.
- * Ski is not facing backwards at the end of the trick.
- * Ski is not stationary at the start of the trick.
- * No hesitation at the end of the trick.
- * Somersault not done across the crest of the wake.
- * Skier does not rotate in a backwards direction.
- * Ski does not reach a level higher than the skiers' head.
- * Somersault not done entirely in mid-air.
- * The skier does not execute a half twist through 180 degrees.
- * The half twist is not executed simultaneously with the flip.
- * Ski not in approximately the same vertical plane as the skiers' head

No. 54 Back Flip Half Twist B-F

Name: Back Flip Half Twist

Code: BFLF

Medium: Wake

Description:

From a backwards skiing position, a wake turn is performed during which the skier executes a backwards somersault, turning through 360 degrees (one full rotation), with the front edge of the ski leading the direction of rotation. Simultaneously, the skier executes a half twist through 180 degrees. At some point during the execution of the flip, both feet must be higher off the wake than, and in approximately the same vertical plane as, the skiers' head. The trick is completed when the lifted ski touches the water, landing in the forwards skiing position.

Disallowances:

- * Ski is not backwards at the start of the trick.
- * Ski is not facing forward at the end of the trick.
- * Ski is not stationary at the start of the trick.
- * No hesitation at the end of the trick.
- * Somersault not done across the crest of the wake.
- * Skier does not rotate in a backwards direction.
- * Ski does not reach a level higher than the skiers' head.
- * Somersault not done entirely in mid-air.

- * The skier does not execute a half twist through 180 degrees.
- * The half twist is not executed simultaneously with the flip.
- * Ski not in approximately the same vertical plane as the skiers' head.

No. 55 Back Flip Full Twist B-B

Name: Back Flip Full Twist (Mobius)

Code: BFLBB

Medium: Wake

Description:

From a forward skiing position, a wake turn is performed during which the skier executes a backwards somersault, turning through 360 degrees (one full rotation), with the front edge of the ski leading the direction of rotation. Simultaneously, the skier executes a full twist through 360 degrees. At some point during the execution of the flip, both feet must be higher off the wake than, and in approximately the same vertical plane as, the skiers' head. The trick is completed when the lifted ski touches the water, landing in the original skiing position.

Disallowances:

- * Ski is not forward at the start of the trick.
- * Ski is not facing in the same direction as at the start of the trick, at the end of the trick.
- * Ski is not stationary at the start of the trick.
- * No hesitation at the end of the trick.
- * Somersault not done across the crest of the wake.
- * Skier does not rotate in a backwards direction.
- * Ski does not reach a level higher than the skiers' head.
- * Somersault not done entirely in mid-air.
- * The skier does not execute a full twist through 360 degrees.
- * The full twist is not executed simultaneously with the flip.
- * Ski not in approximately the same vertical plane as the skiers' head.

No. 56 Back Flip Full Twist F-F

Name: Back Flip Full Twist F-F (Mobius)

Code: BFLO

Medium: Wake

Description:

From a forward skiing position, a wake turn is performed during which the skier executes a backwards somersault, turning through 360 degrees (one full rotation), with the front edge of the ski leading the direction of rotation. Simultaneously, the skier executes a full twist through 360 degrees. At some point during the execution of the flip, both feet must be higher off the wake than, and in approximately the same vertical plane as, the skiers' head. The trick is completed when the lifted ski touches the water, landing in the original skiing position.

Disallowances:

- * Ski is not forward at the start of the trick.
- * Ski is not facing in the same direction as at the start of the trick, at the end of the trick.
- * Ski is not stationary at the start of the trick.
- * No hesitation at the end of the trick.
- * Somersault not done across the crest of the wake.
- * Skier does not rotate in a backwards direction.
- * Ski does not reach a level higher than the skiers' head.
- * Somersault not done entirely in mid-air.
- * The skier does not execute a full twist through 360 degrees.
- * The full twist is not executed simultaneously with the flip.

No. 57 Back Flip Full Twist 540 F-B**Name: Back Flip Full Twist 540 degrees****Code: BFL5B****Medium: Wake****Description:**

From a forward skiing position, a wake turn is performed during which the skier executes a backwards somersault, turning through 540 degrees (one full rotation), with the front edge of the ski leading the direction of rotation. Simultaneously, the skier executes a full twist through 540 degrees. At some point during the execution of the flip, both feet must be higher off the wake than, and in approximately the same vertical plane as, the skiers' head. The trick is completed when the lifted ski touches the water, landing in the back skiing position. The Flip with a 540 degrees rotation or more must be done hand-to-hand. The rope may not be wrapped around the body to assist the turn. This does not prohibit the simple back position wrap where the rope does not go around the body.

Disallowances:

- * Ski is not forward at the start of the trick.
- * Ski is not facing back at the end of the trick.
- * Ski is not stationary at the start of the trick.
- * No hesitation at the end of the trick.
- * Somersault not done across the crest of the wake.
- * Skier does not rotate in a backwards direction.
- * Ski does not reach a level higher than the skiers' head.
- * Somersault not done entirely in mid-air.
- * The skier does not execute a full twist through 540 degrees.
- * The full twist is not executed simultaneously with the flip.
- * Ski not in approximately the same vertical plane as the skiers' head.
- * Trick not done hand to hand

No. 58 Back Flip Full Twist 540 B-F

Name: Back Flip Full Twist 540 degrees

Code: BFL5F

Medium: Wake

Description:

From a Back skiing position, a wake turn is performed during which the skier executes a backwards somersault, turning through 540 degrees (one and a half rotation), with the front edge of the ski leading the direction of rotation. Simultaneously, the skier executes a full twist through 540 degrees. At some point during the execution of the flip, both feet must be higher off the wake than, and in approximately the same vertical plane as, the skiers' head. The trick is completed when the lifted ski touches the water, landing in the original skiing position. The Flip with a 540 degrees rotation or more must be done hand-to-hand. The rope may not be wrapped around the body to assist the turn. This does not prohibit the simple back position wrap where the rope does not go around the body.

Disallowances:

- * Ski is not back at the start of the trick.
- * Ski is not front at the end of the trick.
- * Ski is not stationary at the start of the trick.
- * No hesitation at the end of the trick.
- * Somersault not done across the crest of the wake.
- * Skier does not rotate in a backwards direction.
- * Ski does not reach a level higher than the skiers' head.
- * Somersault not done entirely in mid-air.
- * The skier does not execute a full twist through 540 degrees.
- * The full twist is not executed simultaneously with the flip.
- * Ski not in approximately the same vertical plane as the skiers' head.
- * Trick not done hand to hand

No. 59 Front Flip

Name: Forwards Somersault

Code: FFL

Medium: Wake

Description:

From a forward skiing position, a wake turn is performed during which the skier executes a forwards somersault, turning through 360 degrees (one full rotation), with the back edge of the ski leading the direction of rotation. At some point during the execution of the flip, both feet must be higher off the wake than, and in approximately the same vertical plane as, the skiers'

head. The trick is completed when the lifted ski touches the water, landing in the original skiing position.

Disallowances:

- * Ski is not forward at the start of the trick.
- * Ski is not facing in the same direction as at the start of the trick, at the end of the trick.
- * Ski is not stationary at the start of the trick.
- * No hesitation at the end of the trick.
- * Somersault not done across the crest of the wake.
- * Skier does not rotate in a forwards direction.
- * Ski does not reach a level higher than the skiers' head.
- * Somersault not done entirely in mid-air.
- * Ski not in approximately the same vertical plane as the skiers' head.

No. 60 Front Flip half Twist F-B

Code: FFLB

Medium: Wake

Description:

From a forwards skiing position, a wake turn is performed during which the skier executes a forwards somersault, turning through 360 degrees (one full rotation), with the front edge of the ski leading the direction of rotation. Simultaneously, the skier executes a half twist through 180 degrees. At some point during the execution of the flip, both feet must be higher off the wake than, and in approximately the same vertical plane as, the skiers' head. The trick is completed when the lifted ski touches the water, landing in the backwards skiing position.

Disallowances:

- * Ski is not forwards at the start of the trick.
- * Ski is not facing backwards at the end of the trick.
- * Ski is not stationary at the start of the trick.
- * No hesitation at the end of the trick.
- * Somersault not done across the crest of the wake.
- * Skier does not rotate in a forward direction.
- * Ski does not reach a level higher than the skiers' head.
- * Somersault not done entirely in mid-air.
- * The skier does not execute a half twist through 180 degrees.
- * The half twist is not executed simultaneously with the flip.
- * Ski not in approximately the same vertical plane as the skiers' head.
- * Ski does not reach a level higher than the skiers' head.
- * Somersault not done entirely in mid-air.

No. 61 Front Flip Half Twist B-F

Code: FFLF

Medium: Wake

Description:

From a backwards skiing position, a wake turn is performed during which the skier executes a forwards somersault, turning through 360 degrees (one full rotation), with the back edge of the ski leading the direction of rotation. Simultaneously, the skier executes a half twist through 180 degrees. At some point during the execution of the flip, both feet must be higher off the wake than, and in approximately the same vertical plane as, the skiers' head. The trick is completed when the lifted ski touches the water, landing in the forward skiing position.

Disallowances:

- * Ski is not backwards at the start of the trick.
- * Ski is not facing forward at the end of the trick.
- * Ski is not stationary at the start of the trick.
- * No hesitation at the end of the trick.
- * Somersault not done across the crest of the wake.
- * Skier does not rotate in a forward direction.
- * Ski does not reach a level higher than the skiers' head.
- * Somersault not done entirely in mid-air.
- * The skier does not execute a half twist through 180 degrees.
- * The half twist is not executed simultaneously with the flip.
- * Ski not in approximately the same vertical plane as the skiers' head.
- * Ski does not reach a level higher than the skiers' head.
- * Somersault not done entirely in mid-air.

No. 62 Front Flip Full Twist B-B

Code: FFLBB

Medium: Wake

Description:

From a backwards skiing position, a wake turn is performed during which the skier executes a forwards somersault, turning through 360 degrees (one full rotation), with the back edge of the ski leading the direction of rotation. Simultaneously, the skier executes a full twist through 360 degrees. At some point during the execution of the flip, both feet must be higher off the wake than, and in approximately the same vertical plane as, the skiers' head. The trick is completed when the lifted ski touches the water, landing in the back skiing position.

Disallowances:

- * Ski is not backwards at the start of the trick.
- * Ski is not facing back at the end of the trick.

- * Ski is not stationary at the start of the trick.
- * No hesitation at the end of the trick.
- * Somersault not done across the crest of the wake.
- * Skier does not rotate in a forward direction.
- * Ski does not reach a level higher than the skiers' head.
- * Somersault not done entirely in mid-air.
- * The skier does not execute a full twist through 360 degrees.
- * The half twist is not executed simultaneously with the flip.
- * Ski not in approximately the same vertical plane as the skiers' head.
- * Ski does not reach a level higher than the skiers' head.
- * Somersault not done entirely in mid-air.

No. 62 Front Flip 540° Twist B-F

Code: FFL5F

Medium: Wake

Description:

From a backwards skiing position, a wake turn is performed during which the skier executes a forwards somersault, turning through 360 degrees (one full rotation), with the back edge of the ski leading the direction of rotation. Simultaneously, the skier executes a 540° twist. At some point during the execution of the flip, both feet must be higher off the wake than, and in approximately the same vertical plane as, the skiers' head. The trick is completed when the lifted ski touches the water, landing in the front skiing position.

Disallowances:

- * Ski is not backwards at the start of the trick.
- * Ski is not facing front at the end of the trick.
- * Ski is not stationary at the start of the trick.
- * No hesitation at the end of the trick.
- * Somersault not done across the crest of the wake.
- * Skier does not rotate in a forward direction.
- * Ski does not reach a level higher than the skiers' head.
- * Somersault not done entirely in mid-air.
- * The skier does not execute a full twist through 540 degrees.
- * The half twist is not executed simultaneously with the flip.
- * Ski not in approximately the same vertical plane as the skiers' head.
- * Ski does not reach a level higher than the skiers' head.
- * Somersault not done entirely in mid-air.

No. 65 Back Flip Ski Line F-B

Name: Back Flip Ski Line 180° to back

Code: BFLSLB

Medium: Wake**Description:**

From a forward skiing position, a wake turn is performed during which the skier executes a backwards somersault, turning through 360 degrees (one full rotation), with the front edge of the ski leading the direction of rotation. Simultaneously, the skier executes a half twist through 180 degrees with the ski passing over the rope. At some point during the execution of the flip, both feet must be higher off the wake than, and in approximately the same vertical plane as, the skiers' head. The trick is completed when the lifted ski touches the water, landing in the backwards skiing position.

Disallowances:

- * Ski is not forward at the start of the trick.
- * Ski is not facing backwards at the end of the trick.
- * Ski is not stationary at the start of the trick.
- * No hesitation at the end of the trick.
- * Somersault not done across the crest of the wake.
- * Skier does not rotate in a backwards direction.
- * Ski does not reach a level higher than the skiers' head.
- * Somersault not done entirely in mid-air.
- * The skier does not execute a half twist through 180 degrees.
- * The half twist is not executed simultaneously with the flip.
- * Ski not in approximately the same vertical plane as the skiers' head
- * Ski does not pass over the rope to execute the Ski Line

No. 66 Back Flip Ski Line B-B**Name: Back Flip Ski Line back to back****Code: BFLSLBB****Medium: Wake****Description:**

From a back skiing position, a wake turn is performed during which the skier executes a backwards somersault, turning through 360 degrees (one full rotation), with the front edge of the ski leading the direction of rotation. Simultaneously, the skier executes a full twist through 360 degrees with the ski passing over the rope. At some point during the execution of the flip, both feet must be higher off the wake than, and in approximately the same vertical plane as, the skiers' head. The trick is completed when the lifted ski touches the water, landing in the back skiing position.

Disallowances:

- * Ski is not back at the start of the trick.
- * Ski is not facing in the same direction as at the start of the trick, at the end of the trick.

- * Ski is not stationary at the start of the trick.
- * No hesitation at the end of the trick.
- * Somersault not done across the crest of the wake.
- * Skier does not rotate in a backwards direction.
- * Ski does not reach a level higher than the skiers' head.
- * Somersault not done entirely in mid-air.
- * The skier does not execute a full twist through 360 degrees.
- * The full twist is not executed simultaneously with the flip.
- * Ski not in approximately the same vertical plane as the skiers' head.

No. 67 Back Flip Ski Line F-F

Name: Back Flip Ski Line F-F

Code: BFLSLO

Medium: Wake

Description:

From a forward skiing position, a wake turn is performed during which the skier executes a backwards somersault, turning through 360 degrees (one full rotation), with the front edge of the ski leading the direction of rotation. Simultaneously, the skier executes a full twist through 360 degrees with the ski passing over the rope. At some point during the execution of the flip, both feet must be higher off the wake than, and in approximately the same vertical plane as, the skiers' head. The trick is completed when the lifted ski touches the water, landing in the original skiing position.

Disallowances:

- * Ski is not forward at the start of the trick.
- * Ski is not facing in the same direction as at the start of the trick, at the end of the trick.
- * Ski is not stationary at the start of the trick.
- * No hesitation at the end of the trick.
- * Somersault not done across the crest of the wake.
- * Skier does not rotate in a backwards direction.
- * Ski does not reach a level higher than the skiers' head.
- * Somersault not done entirely in mid-air.
- * The skier does not execute a full twist through 360 degrees.
- * The full twist is not executed simultaneously with the flip.
- * Ski does not pass over the rope to execute the Ski Line

No. 68 Back Flip Ski Line 540° B-F

Name: Back Flip Ski Line 540°back to front

Code: BFLSL5F

Medium: Wake

Description:

From a back skiing position, a wake turn is performed during which the skier executes a backwards somersault, turning through 360 degrees (one full rotation), with the front edge of the ski leading the direction of rotation. Simultaneously, the skier executes a full twist through 540 degrees with the ski passing over the rope. At some point during the execution of the flip, both feet must be higher off the wake than, and in approximately the same vertical plane as, the skiers' head. The trick is completed when the lifted ski touches the water, landing in the front skiing position.

Disallowances:

- * Ski is not back at the start of the trick.
- * Ski is not front at the end of the trick.
- * Ski is not stationary at the start of the trick.
- * No hesitation at the end of the trick.
- * Somersault not done across the crest of the wake.
- * Skier does not rotate in a backwards direction.
- * Ski does not reach a level higher than the skiers' head.
- * Somersault not done entirely in mid-air.
- * The skier does not execute a full twist through 540 degrees.
- * The 540° twist is not executed simultaneously with the flip.
- * Ski not in approximately the same vertical plane as the skiers' head.
- * Ski does not pass over the rope to execute the Ski Line

No. 69 Front Flip Ski Line 540° B-F

Name: Front Flip Ski Line 540°back to front

Code: FFLSL5F

Medium: Wake

Description:

From a back skiing position, a wake turn is performed during which the skier executes a front somersault, turning through 360 degrees (one full rotation), with the front edge of the ski leading the direction of rotation. Simultaneously, the skier executes a full twist through 540 degrees with the ski passing over the rope. At some point during the execution of the flip, both feet must be higher off the wake than, and in approximately the same vertical plane as, the skiers' head. The trick is completed when the lifted ski touches the water, landing in the front skiing position.

Disallowances:

- * Ski is not back at the start of the trick.
- * Ski is not front at the end of the trick.
- * Ski is not stationary at the start of the trick.
- * No hesitation at the end of the trick.
- * Somersault not done across the crest of the wake.

- * Skier does not rotate in a backwards direction.
- * Ski does not reach a level higher than the skiers' head.
- * Somersault not done entirely in mid-air.
- * The skier does not execute a full twist through 540 degrees.
- * The 540° twist is not executed simultaneously with the flip.
- * Ski not in approximately the same vertical plane as the skiers' head.
- * Ski does not pass over the rope to execute the Ski Line
